

Dear parents,

As you may know the measles protection law has been in force in Germany since March 1<sup>st</sup> 2020.

When registering your child at school, proof is required that your child has been vaccinated.

To register your child at school, please take the valid vaccination certificate or the medical certificate from the management of your refugee reception facility with you.

If your child is not vaccinated, please let the receiving school know.

Many thanks for your understanding in advance.

Best regards

Signed Dr Mäkert

Migration Coordinator
