

8a Englisch Woche 25.05. – 29.05.2020

Liebe Schüler der Klasse 8a,

in der letzten Mai-Woche werden wir uns nicht im Präsenzunterricht sehen. Deshalb findet ihr anbei die Lernaufgaben für die 10. Corona-Woche, welche ich euch bereits am 20.05.2020 bekannt gegeben habe.

Bitte sendet mir weiterhin euer Feedback zu – nur so kann ich in euerm Interesse meine Aufgaben umstellen.

Solltet ihr Fragen oder Schwierigkeiten haben oder wollt ihr mir Feedback zu den Aufgaben geben, dann schreibt mir eine Mail:
klassenleitung.138os@gmail.com

Ich wünsche euch und euren Familien eine schöne Woche!

Beste Grüße sendet euch,
Herr Hollmach

1) WB 39 / 12 a-d

➤ **Do** the tasks as requested.

Extra: WB 39 / 12 e

I will upload a solution sheet for tasks 12 a-d by Wednesday. **Check** yourself.

AB Drinks

AB Soft drinks, hard facts

Soft drinks, hard facts

**Drinking soda is one of the worst things you can do to your health.
But some schools are now beginning to do something about it.**

Experts agree that sugary soft drinks and fast food are the main reasons why so many American teenagers are fat. About 7 % of the calories that they take in come from soft drinks alone. And even if this doesn't cause health problems now, there could be serious trouble later in life.

The problem is that you are still hungry after drinking soft drinks, says Wayne Campbell, a professor in the Department of Food and Nutrition at Purdue University. That's because you don't feel full after drinking – although soft drinks contain a lot of calories. So if you drink a cola, for example, you take in 200 calories, but you still want a burger.

American kids and teenagers are drinking more soft drinks than ever before, according to the U.S. Department of Agriculture. Soda has taken the place of other, healthier drinks. Thirty years ago, for example, boys drank more than twice as much milk as soft drinks.

So what can be done? In California, at least, schools aren't allowed to sell soda anymore. That's because experts have found out that having or not having soda machines in schools changes how much soda teenagers drink. If it's easy to buy soda, kids will drink more. If it's difficult, they won't.
